PLCs

Nothing can bring down a factory faster than a failed Programmable Logic Controller. Perfection Servo repairs all major brands of PLCs including: Allen Bradley, GE, Modicon, Texas Instruments, and Siemens. We can usually repair your failed PLC in 10 days or less. We also offer priority service when faster turnaround is needed. In many cases, we are able to send a rebuilt or new board to replace the failed unit immediately.

The manufacturers we commonly service are:

- AEG/ Modicon
- Allen Bradley
- Direct logic
- GE Fanuc
- General Electric
- Gould Modicon
- Horner Electric
- Koyo
- Mitsubishi
- Modicon
- Omron
- PLC Direct
- Reliance
- Siemens
- Square D
- Texas Instruments
